HEATING & AIR TREATMENT

Catalogue 2025

Your Home Comfort since 1956

Olimpia Splendid is an Italian company that - for almost 70 years - has been designing, producing and marketing technologies for conditioning, heating and treating the air at home.

Ensuring the best home comfort, at all times of the year and for all our customers around the world, is our goal. Taking care of the climate at home, while respecting that of the Planet is how we have chosen to achieve this. For this reason, we create innovative products with a high aesthetic finish, efficient and with reduced environmental impact: solutions for more sustainable comfort.

Our Home is the Planet

Olimpia Splendid's commitment to sustainability is built around 5 key points, which are inspired by the objectives defined by the UN in the 2030 Agenda for Sustainable Development: a program of actions for people, the planet and prosperity. Since 2021, Olimpia Splendid's results are monitored and published through the annual Sustainability Report.

Innovative and inclusive solutions

Our strategy for sustainable economic growth is based on innovation and diversification. There are 12 technological patents currently active, created to overcome the limits of traditional solutions and to make climate comfort a right within everyone's reach.

Carbon neutral processes

To efficiently use industrial resources, we have set ourselves the goal of reducing our direct and indirect greenhouse gas emissions by 50% by 2030 and of achieving complete climate neutrality by 2040.

Efficient technologies

Researching and developing new heat pump comfort systems is our direct contribution to creating sustainable cities and communities, where domestic consumption is decarbonised and the available electricity is used wisely.

Products that are durable and can be regenerated

For an eco-compatible waste management, we select components and materials based on their recyclability and repairability, we guarantee spare parts for a minimum of 15 years and we encourage the recovery and disposal of end-of-life products through the most virtuous consortia.

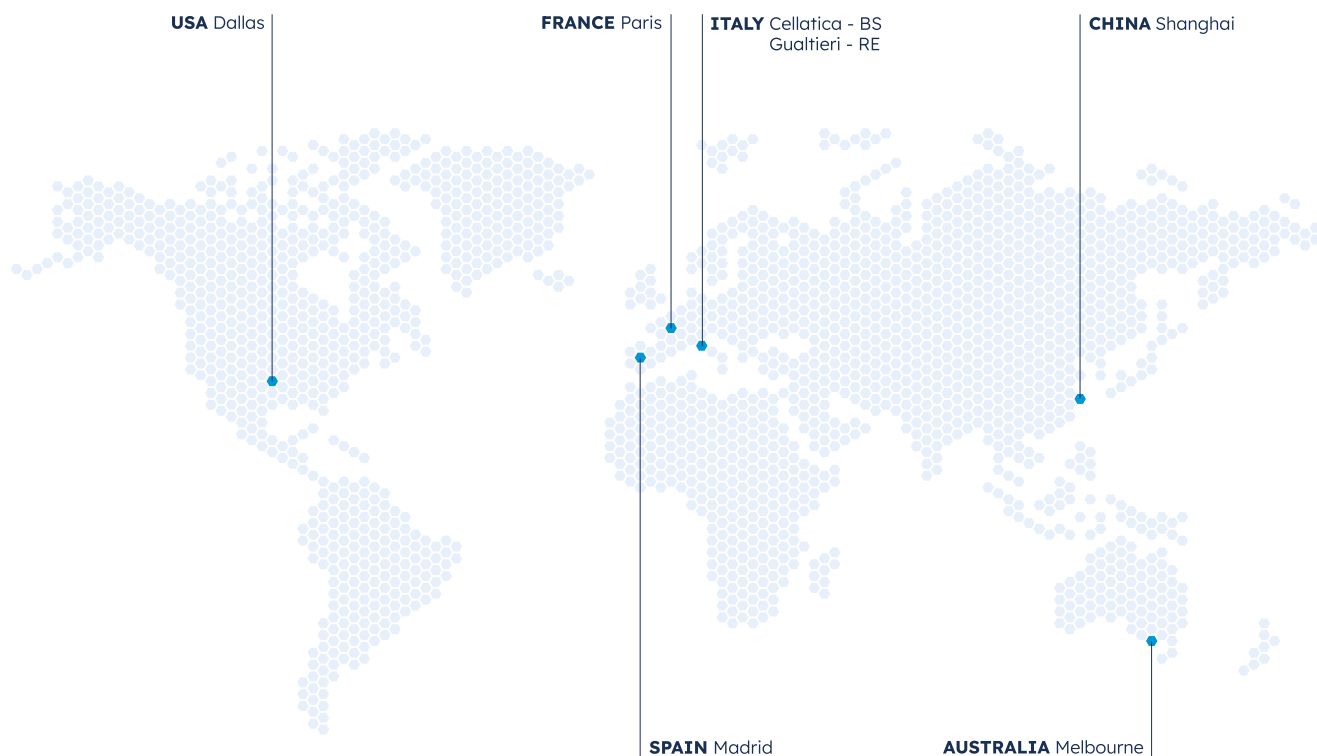

Shared responsibility

The fight against climate change must be objective and a shared responsibility. This is why we are personally committed to effectively informing our consumers and to promoting sustainable behaviour in the use of our products.

Made in Italy around the world

Every Olimpia Splendid product is born in the Brescia headquarters, where the R&D centre designs and develops solutions capable of standing out for their innovation, aesthetic finish and sustainability, following the LCA (Life Cycle Assessment) principles. The core technologies are created in our Italian production pavilion, 100% powered by renewable electricity and designed as a highly productive Smart Factory. From Italy, the Olimpia Splendid brand comfort then reaches over 45 countries around the world, through 5 direct commercial branches and a widespread network of distributors.

OS Home

The technology that connects Olimpia Splendid products to smartphones and voice control. For more user-friendly comfort control.

Smartphone and tablet

Olimpia Splendid products with built-in **Wi-Fi** can also be managed remotely, both in and out of the home, thanks to the internet connection on your smartphone or tablet. To activate them and configure the main functions, just **download the OS Home mobile app** which is compatible with iOS and Android devices.

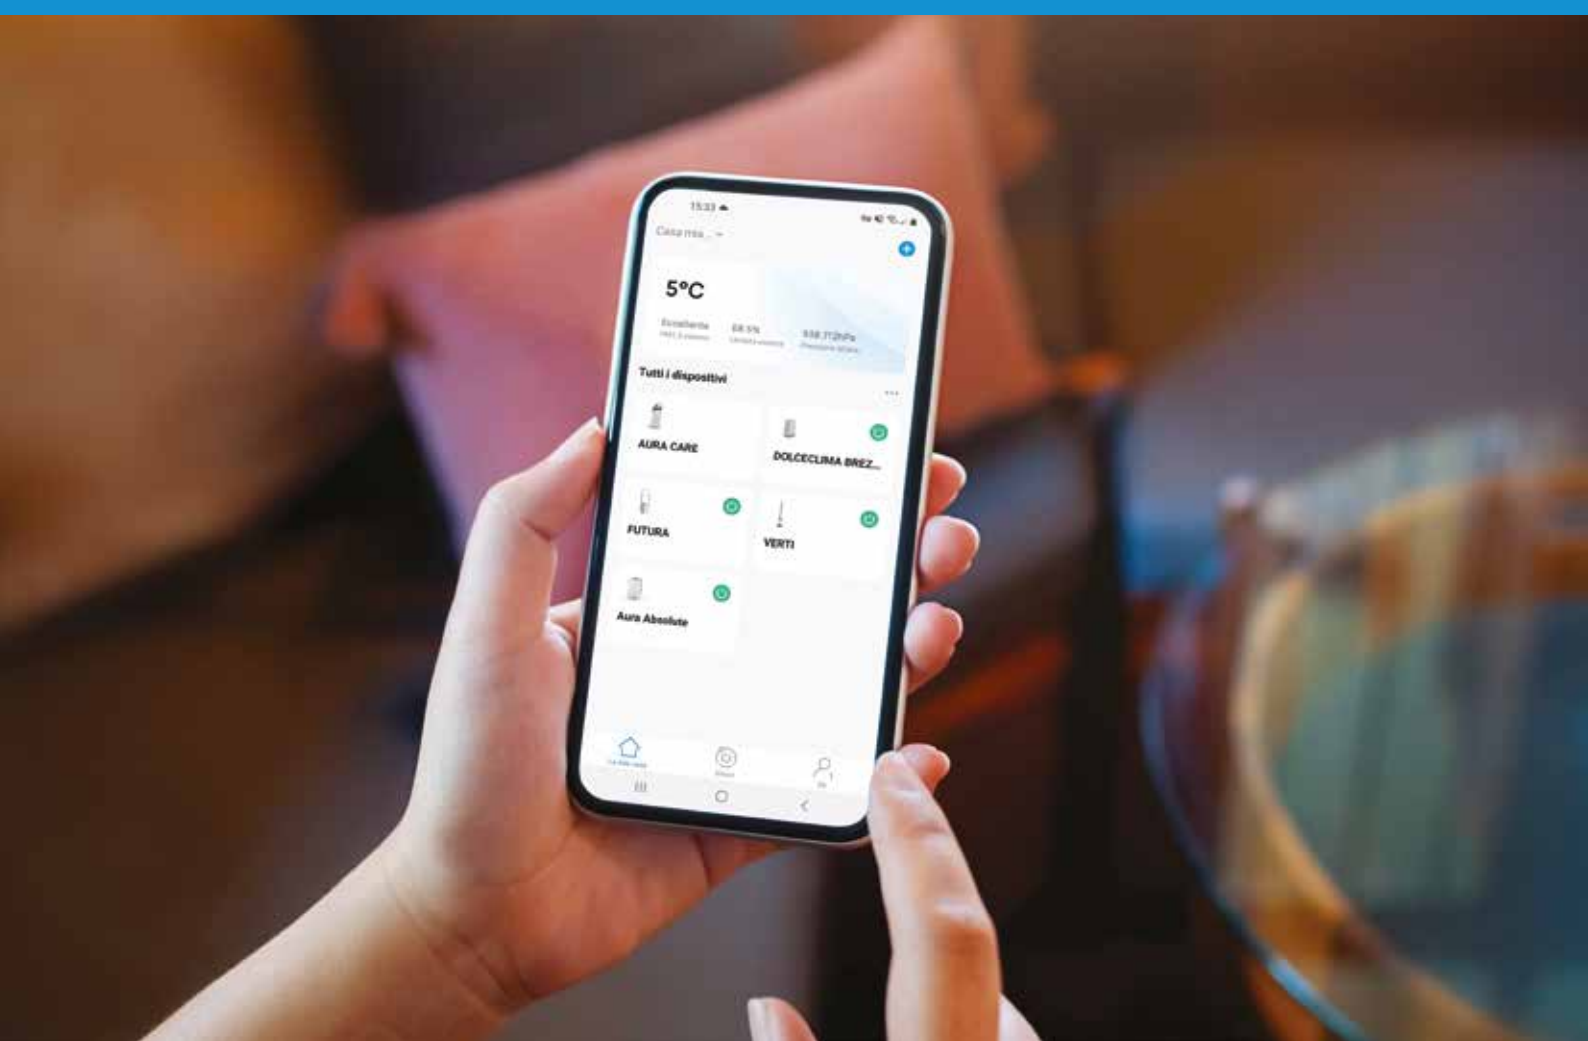

Voice control

The new Olimpia Splendid Wi-Fi technology allows you to connect some of the products to the main **voice control** systems as well. The OS Home compatible actions and skills are available for download on the relevant stores.

OS Home is available for:

- **Caldo Sky G Wifi (99265) and Caldo Sky B Wifi (99264)** fan heaters
- **Caleo Glass Wifi (99238)** convector
- **Aquaria S1 20 P (02064) and Aquaria S1 24 P (02065)** dehumidifiers
- **Limpia Hero Wifi (99239)** humidifier
- **Aura Absolute (99278)** air purifiers

Further information about the OS HOME functions and compatibility with mobile devices and voice control systems is available on Olimpiaspplendid.com

FAN HEATERS

For a new comfort
experience

Original colours and maximum usability for a new experience of comfort

Much more than fan heaters

The Olimpia Splendid range is designed to offer a new experience of comfort, through colours and shapes in line with the latest interior design trends and practical technological solutions.

Thanks to **digital control panels, oscillating bases and integrated timers**, the Olimpia Splendid fan heaters can indeed go beyond their primary function, surpassing the traditional context of use and allowing year-round use in the home.

Powerful, robust and safe

Olimpia Splendid fan heaters cater for all needs (from 1500 to 2400W) as well as fans of all-round heat with solutions featuring ceramic heating elements. No cutting corners on the safety front either - they are made from **self-extinguishing** plastic and feature a **safety thermostat** on all models.

Moreover, Olimpia Splendid needle resistance fan heaters have an **IP21 protection** rating, making them safe against falling solid objects greater than 12 millimetres or falling drops of water.

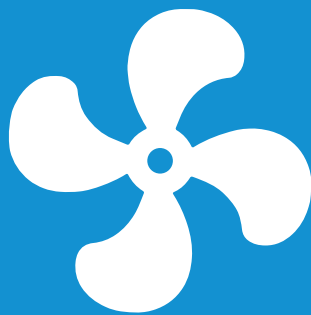

Range of fan heaters

< 2000W		2000W		> 2000W

 Protection against dripping
 Rotating base

 Wall installation
 Remote control included

 Integrated wi-fi

Needle resistance
fan heaters

CALDO RADIALE

The compact table fan heater

Cod. 99240

DUAL USE

Benchtop or floor-standing, thanks to the addition of four supplied feet.

COMPACT DESIGN

Small and compact, fits discreetly into any space

3 MODES OF USE

Fan only and two power levels, for customised comfort

ANTI-FROST FUNCTION

To set automatic ignition, when the temperature drops below 10°C

FEATURES

- Needle resistance
- Max heat output: 1800 W
- 2 power levels (900 - 1800W)
- Safety thermostat
- Room thermostat
- Anti-overheating device
- Mechanical controls
- Fan only function
- Antifreeze function
- Deflector for vertical grille inclination
- Additional feet included

CALDO POP

Needle fan heaters with IP21 protection

Cod. 99291

Cod. 99292

POWER UP TO 2000W

Adjustable power level (1.000/2.000W)

IP21 PROTECTION

Safety guaranteed against falling drops of water, frequent in the bathroom

3 MODES OF USE

Fan only and two power levels, for customised comfort

FEATURES

- Needle resistance
- Power settings: 1000/2000W
- IP 21 type-approved against vertical dripping
- Fan only function
- Safety thermostat

CALDO RELAX

Compact fan heater for safe heating

Cod. 99338

POWER UP TO 2000W

Adjustable power level (1.000/2.000W)

IP21 PROTECTION

Safety guaranteed against falling drops of water, frequent in the bathroom

ANTI-TIP DEVICE

Automatically switches off if it falls over

3 MODES OF USE

Fan only and two power levels, for customised comfort

FEATURES

- Needle resistance
- Power settings: 1000/2000W
- IP 21 type-approved against vertical dripping
- Fan only function
- Safety thermostat
- Room thermostat
- Grip on rear
- Anti-tip device

NEW

CALDO FUNKY

The safe fan heater, even in the bathroom

Cod. 99203

ROTATING BASE

Automatic horizontal air flow oscillation for improved heat diffusion

IP21 PROTECTION

Safety guaranteed against falling drops of water, frequent in the bathroom

SECURE SYSTEM

Equipped with room and safety thermostats and automatic switch-off if tipped over

3 MODES OF USE

Fan only and two power levels, for customised comfort

FEATURES

- Needle resistance
- Max heat output: 2000W
- 2 adjustable power levels: 1000/2000W
- Ventilation-only function
- IP21 vertical drip protection
- Room and safety thermostat
- Overheat protection
- Anti-tip device
- Mechanical controls
- Swing function
- Practical handle

CALDO ROCK M

Needle resistance fan heater with 3 modes of use

Cod. 99293

POWER UP TO 2000W

Adjustable power level (1.000/2.000W)

IP21 PROTECTION

Safety guaranteed against falling drops of water, frequent in the bathroom

ANTI-TIP DEVICE

The fan heater automatically switches off if it falls over

3 MODES OF USE

Fan only and two power levels, for customised comfort

FEATURES

- Needle resistance
- Power settings: 1000/2000W
- IP 21 type-approved against vertical dripping
- Fan only function
- Safety thermostat
- Anti-tip device

CALDO ROCK 0

Needle resistance fan heater with rotating base

Cod. 99294

ROTATING BASE

Automatic horizontal air flow oscillation for improved heat diffusion

POWER UP TO 2000W

Adjustable power level (1.000/2.000W)

SECURE SYSTEM

IP21 protection against falling drops of water and automatically switches off if it falls over

3 MODES OF USE

Fan only and two power levels, for customised comfort

FEATURES

- Needle resistance
- Selectable thermal power: 1000/2000W
- IP21 protection against falling drops of water
- Oscillating function
- Fan only function
- Safety thermostat
- Anti-tip device

CALDO SOUL

The fan heater for customised comfort

Cod. 99202

ROTATING BASE

Automatic horizontal air flow oscillation for improved heat diffusion

TOUCHSCREEN DISPLAY

Touch control panel with an understated style, used to set the temperature and minimum and maximum power (1000-2000W).

ECO MODE

It is able to modulate the input power depending on the measured room temperature, reducing consumption and increasing comfort levels.

SECURE SYSTEM

IP21 protection against falling drops of water and automatically switches off if it falls over

FEATURES

- Needle resistance
- Max heat output: 2000W
- 2 adjustable power levels: 1000/2000W
- IP21 vertical drip protection
- Room and safety thermostat
- Overheat protection
- Anti-tip device
- Touchscreen display
- 24h timer
- Ventilation-only function
- Swing function
- Antifreeze function (when the room temperature is below 7°C)
- Eco mode to reduce consumption
- Temperature setting from 15°C to 35°C
- Practical handle
- Remote control included

CALDO TEKNO

The safe and feature-rich fan heater

Cod. 99241

TOUCHSCREEN DISPLAY

Touch control panel with an understated style, used to set the temperature and minimum and maximum power (1000-2000W).

ECO MODE

It is able to modulate the input power depending on the measured room temperature, reducing consumption and increasing comfort levels.

SILENT FUNCTION

Quiet operation for maximum acoustic comfort

SECURE SYSTEM

IP21 protection against falling drops of water and automatically switches off if it falls over

FEATURES

- Needle resistance
- Max heat output: 2000 W
- 2 power levels (1000 - 2000W)
- IP21 protection against vertical dripping
- Safety thermostat
- Room thermostat
- Anti-overheating device
- Anti-tip device
- 24h Timer
- Touchscreen display
- Fan only function
- Antifreeze function
- Eco Mode to reduce consumption
- Silent Mode for greater acoustic comfort
- Practical handle for movement
- Remote control included

CALDOSILENT

Powerful and silent needle resistance fan heater

Cod. 99329

POWER UP TO 2400W

Maximum power, among the highest in the category.

ACOUSTIC COMFORT

Lower sound pressure: up to 3dB (A) less than traditional models. 50%* lower perceived noise.

IP21 PROTECTION

Safety guaranteed against falling drops of water, frequent in the bathroom

TIMER

24h timer programming.

FEATURES

- Needle resistance
- Max thermal power 2400 W
- 2 power levels (1200-2400W)
- Fan function
- Mechanical controls
- IP21 approved rating against vertical drip
- 90° swing
- 24h timer
- Safety thermostat
- Room thermostat
- Antifreeze function
- Anti-tip switch
- Handle
- Silent System

* Internal tests on the range Olimpia Splendid

NEW

CALDO DUO

The dual installation fan heater

Cod. 99201

DOUBLE INSTALLATION

Standard tabletop use or vertical positioning: it can also be wall-mounted thanks to the practical brackets provided.

ENERGY SAVING

Automatic switch-off function if windows are opened and Eco mode to adjust the power output and halve energy consumption

SECURE SYSTEM

IP21 or IP24 protection rating (respectively for tabletop use or wall-mounted), safety thermostat and overheat protection

TOUCHSCREEN DISPLAY

Touch controls to set the temperature and manage all the functions (timer included)

FEATURES

- Needle resistance
- Dual installation: tabletop or wall-mounted
- Max thermal power: 2000W
- 2 adjustable power levels: 1000/2000W
- IP21 protection rating with tabletop use, IP24 protection rating if wall-mounted
- Room and safety thermostat
- Overheat protection
- Anti-tip device
- Touchscreen display
- Daily and weekly timer
- Ventilation-only function
- Antifreeze function (when the room temperature is below 7°C)
- Eco mode to reduce consumption
- Temperature setting from 10°C to 35°C
- Window opening detector
- Practical wall attachment
- Remote control included

Ceramic fan heaters

CALDO POCKET

The most compact fan heater yet

Cod. 99229

COMPACT TECHNOLOGY

Small, practical and compact, with pull-out feet, it fits seamlessly into any setting.

3 MODES OF USE

Fan only and two power levels, for customised comfort

ANTI-FROST FUNCTION

To set automatic ignition, when the temperature drops below 5°C

1500W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

- Max thermal power: 1500 W
- 2 power levels (1000 W - 1500 W)
- Ceramic heating element
- Room thermostat
- Safety thermostat
- Overheating protection
- Anti-tip switch
- Fan-only function
- Anti-freeze function
- Mechanical controls
- Pull-out feet and convenient handle

CALDODESIGN

Retro-style ceramic fan heaters

Cod. 99404

Cod. 99447

COMPACT DESIGN

Small and compact, Caldodesign will blend smoothly into any context, thanks to its reduced dimensions.

VERTICAL TILT ADJUSTMENT

Thanks to the sturdy base, the tilt can easily be adjusted for heating in any position

3 MODES OF USE

Fan only and two power levels, for customised comfort

1800W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

- Max thermal output: 1800 W
- Ceramic Resistance
- Room Thermostat
- Safety thermostat
- Fan only function
- Anti-frost function
- Power selection
- Tilt adjustment
- 2 LED indicator
- Mechanical control

CALDO CUBIC

The compact and safe ceramic fan heater

Cod. 99228

SECURE SYSTEM

IP21 protection against falling drops of water and automatically switches off if it falls over

3 MODES OF USE

Fan only and two power levels, for customised comfort

EASY TO MOVE

Ultra-practical with an ergonomic handle and compact dimensions

1800W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

- Max thermal power: 1800 W
- 2 power levels (900 W - 1800 W)
- Ceramic heating element
- Room thermostat
- Safety thermostat
- Overheating protection
- Anti-tip switch
- IP21 rating
- Fan-only function
- Anti-freeze function (when the temperature drops below 5°C)
- Mechanical controls
- Convenient handle

CALDO TRENDY

The safe fan heater with digital panel

Cod. 99268

SECURE SYSTEM

IP21 protection against falling drops of water and automatically switches off if it falls over

DIGITAL CONTROL

Digital control panel to regulate power and integrate timer

ROTATING BASE

Automatic horizontal air flow oscillation for improved heat diffusion

1800W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

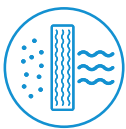

- Max thermal power: 1800 W
- 2 power levels (900 W - 1800 W)
- Ceramic heating element
- Room thermostat
- Safety thermostat
- Overheating protection
- Anti-tip switch
- IP21 protection rating
- ECO function (up to 50% energy savings)
- 12h Timer
- Digital control panel and LED display
- Temperature setpoint from 15°C to 30°C
- 80° automatic swing

CALDO TRENDY T

The tower fan heater with a integrated air filter

Cod. 99266

AIR FILTER

Air filter with antidust efficiency, easy to remove and clean

DIGITAL CONTROL

Digital control panel to regulate power and integrate timer

ROTATING BASE

Automatic horizontal air flow oscillation for improved heat diffusion

2000W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

- Max thermal power: 2000 W
- 2 power levels (1000 W - 2000 W)
- Ceramic resistor
- Room thermostat
- Safety thermostat
- Overheating protection
- Anti-tip switch
- ECO function (up to 50% energy savings)
- 12h Timer
- Digital control panel and LED display
- Temperature setpoint from 15°C to 30°C
- 80° automatic swing
- Remote control
- Antidust filter

CALDO SKY

The wall-mounted ceramic fan heater with integrated Wi-Fi

Cod. 99265

Cod. 99264

WI-FI AND VOICE CONTROL

Thanks to the integrated Wi-Fi and compatibility with the most common voice controllers, it can be managed with either voice commands or using the dedicated app.

COMFORT 12 MONTHS

Three operating levels with fan only and two power levels, with motorised flap and auto-swing

SECURE SYSTEM

IP22 protection, safety thermostat, anti-overheating device and open window sensor

2000W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

- Max thermal power: 2000 W
- 3 settings: fan only/low/high
- Ceramic resistor
- Room thermostat
- Safety thermostat
- Overheating protection
- Open window detection
- Motorised flap and auto-swing
- Touchscreen display
- Temperature setpoint between 18°C and 45°C
- Timer with weekly programme
- Remote control
- Handy wall attachment

CALDO UP T

Programmable wall-mounted ceramic fan heater

Cod. 99364

LED DISPLAY

Option to view the temperature and active functions via LED indicator lights on-board the machine.

COMFORT 12 MONTHS

Three operating levels with fan only and two power levels, with motorised flap and auto-swing

SECURE SYSTEM

Safety thermostat, overheating protection and window opening detector

2000W WITH CERAMIC TECHNOLOGY

The ceramic resistance guarantees more even and constant heat distribution.

FEATURES

- Max power : 2000 W
- Ceramic resistance
- 3 settings: fan only/low/high
- Remote control
- LED display with digital controls
- Weekly timer with daily slots
- Overheating protection
- Practical wall connection
- Automatic flap swing
- Light power indicator
- Weekly programming timer
- Open window detector

CONVECTORS

For immediate and consistent
comfort throughout the room

The benefits of convection heating

Uniform and immediate heat

The convector heaters exploit the natural convection of air: they attract cold air flows from below and release hot air flows from above. Exploiting and facilitating this movement ensures highly efficient heat diffusion. Moreover, their direct action on the air temperature (and not just the surfaces) makes them ideal for those requiring immediate heat. The design of the air output grilles and turbo functions further amplify the heating speed of Olimpia Splendid systems.

Double installation and advanced controls

Olimpia Splendid systems stand out for their exceptional user experience. In addition to traditional floor-standing installation, the convector can also be wall mounted for best integration in the room. And the controls? In addition to the on-board panel, there are also automatic on/off timers, a remote control for control by remote, and for the model with built-in Wi-Fi, also a mobile app. For a comfort that's always under control.

Convector range

 Built-in timer

 Turbo Function

 Integrated wi-fi

CALEO GLASS WIFI

The glass convector heater with double installation and built-in Wi-Fi

Cod. 99238

DOUBLE INSTALLATION

Possibility for wall or floor installation thanks to the supplied brackets and feet.

INTEGRATED WI-FI

By downloading the OS Home app it is possible to manage all its functions from your smartphone, even when away from home.

ECO FUNCTION

Adjustable power for up to 50% energy savings.

GLASS FRAME

Glass front panel for a more contemporary style with built-in touchscreen display

FEATURES

- Max heat output 2000 W
- 2 power levels: 1000 - 2000 W
- Temperature setting from 15°C to 50°C
- Touchscreen display
- Safety thermostat
- Room thermostat
- Anti-overheating device
- Wall or floor installation
- Brackets included for wall mounting
- Antifreeze function
- Eco Function
- 24h Timer and Weekly Timer
- Child lock
- Remote control included
- Maximum heatable volume: 60 m³

CALEO METAL

Fan heater with full metal frame

Cod. 99296

POWER UP TO 2000W

3 adjustable heating levels (750, 1,250 and 2,000W)

SILENT SYSTEM

Silent operation, for optimum acoustic comfort

ROOM THERMOSTAT

To optimise consumption, maintaining the desired temperature

FULL METAL FRAME

Full metal frame for maximum safety.

FEATURES

Max thermal output: 2000 W
3 power settings: 750 - 1250 - 2000 W
Mechanical controls
Safety thermostat
Room thermostat
Floor installation
Max room volume: 60 m³

CALEO 2

Fan heaters with turbo function and 24h timer

Cod. 99552

Cod. 99551

FAST HEATING

The design of the grille in the upper part widens the convection range, making Caleo a very low inertia convector, ideal when a room needs to be heated very quickly.

COMPACT TECHNOLOGY

Extremely compact shape and only 12 cm thick.

METAL FRAME

The clean shape, lightness and solidity of Caleo are made possible by the painted metal frame and shell.

TIMER

24h timer programming (only TT version)

FEATURES

Max thermal output: 2000 W

3 power settings: 750 - 1250 - 2000

Mechanical controls

Safety thermostat

Floor installation

Turbo Function: auxiliary fan

24h Timer (only Caleo TT)

Max room volume: 70 m³

INFRARED HEATERS

Maximum performance,
minimum consumption

Customised, energy-efficient comfort: Olimpia Splendid infrared technology

Intense, efficient heating

Technology meets practicality and respect for the environment in the world of Olimpia Splendid infrared heaters. Our heaters offer much more than a simple heat source. They are designed to ensure maximum comfort while minimising energy consumption.

The heaters are the best solution if you want to heat small areas in the home. They use quartz, halogen and carbon fibre lamps to create heat.

Infrared technology benefits

The user-friendly design of our heaters makes them easy to use, with convenient handles to move them from one room to another.

If you're looking for greater customisation of your comfort, the carbon fibre heater allows you to direct the heat, thus ensuring optimal heating.

For rooms featuring very dry air, the quartz heater emits a gentle flow of steam to help maintain ideal humidity levels, ensuring a comfortable and healthy environment.

Cod. 99227

QUARTZ TECHNOLOGY

Instant, uniform heat thanks to quartz lamp infrared technology

3 POWER LEVELS

The temperature of the room is easily adjusted by turning the knob.

STOP DRY AIR

In addition to heating the room, it is also possible to avoid dry air by using the humidifier setting to deliver a light jet of hot vapour

EASY TO MOVE

Convenient ergonomic handle and cable winder for greater comfort of use

FEATURES

Max thermal power: 1200 W
3 power levels (400 - 800 - 1200 W)
6 usage modes: 3 power levels and no vapour emission
Safety thermostat
Overheating protection
Anti-tip switch
Convenient handle and cable winder
Mechanical controls
Maximum room volume: 45 m³

SOLARIA EVO

Infrared heater with halogen technology from 1200W

Cod. 99545

Cod. 99396

HALOGEN TECHNOLOGY

Maximum heating speed. Halogen technology guarantees uniform comfort and extreme rapidity.

USER FRIENDLY

Practical and ergonomic handle, for an even easier transport.

OSCILLATION

90° oscillation for amplified heat distribution.

3 POWER LEVELS

The temperature of the room is easily adjusted by turning the knob.

FEATURES

3 power settings (400 - 800 - 1200 W)
90° Oscillation
Safety thermostat
Anti-tip switch
Handle
Max room volume: 45 m³

SOLARIA CARBON

1100W carbon fibre infrared heater

Cod. 99610

CARBON TECHNOLOGY

The infrared lamps are made of carbon fibre, an ecological technology that makes the most of heating by minimizing light dispersion.

ORIENTING

The infrared lamp can be inclined up to 80° orienting the heat upwards, for greater heating comfort.

OSCILLATION

90° oscillation for amplified heat distribution.

2 POWER LEVELS

The temperature of the room is easily adjusted by using the knobs

FEATURES

Max hermal output 1100 W

2 power settings (600 - 1100 W)

Mechanical controls

90° Oscillation

Radiation direction: the lamp can be inclined up to 80° orienting the heat upwards

Safety thermostat

CARBON BLACK

1100W carbon fibre infrared heater

Cod. 99579

CARBON TECHNOLOGY

The infrared lamps are made of carbon fibre, an ecological technology that makes the most of heating by minimizing light dispersion.

OSCILLATION

90° oscillation for amplified heat distribution.

2 POWER LEVELS

The temperature of the room is easily adjusted by using the knobs

FEATURES

- Max thermal output 1100 W
- 2 power settings (550 - 1100 W)
- Mechanical controls
- 90° Oscillation
- Safety thermostat
- Anti-tip switch
- Handle
- Max room volume: 45 m³

NEW

CARBON TWIST

1200W carbon fibre infrared heater

Cod. 99199

CARBON TECHNOLOGY

The infrared lamps are made of carbon fibre, an ecological technology that makes the most of heating by minimizing light dispersion.

ROTATING BASE

Automatic horizontal air flow oscillation for improved heat diffusion

SECURE SYSTEM

Fitted with overheating protection and automatic switch-off if tipped over

2 POWER LEVELS

The temperature of the room is easily adjusted by using the knobs

FEATURES

Max thermal power: 1200W
2 power levels (600 - 1200 W)
4 operating modes: 2 power levels with and without swing function
Mechanical controls
Safety thermostat
Anti-tip switch
Swing function
Practical handle
Maximum heated volume: 45 m³

RADIATORS

The most silent comfort is
long-lasting

Silent and long-lasting heat for pleasant, breathable comfort

Super power, in maximum silence

Oil-filled radiators are the ideal solution to efficiently heat rooms in utmost acoustic comfort. The Olimpia Splendid range is made up of 6 models with variable thermal power from 1500 to 2500W, to suit a variety of needs.

Multifunctionality

To make comfort a state of complete well-being, the Olimpia Splendid range also includes electric radiators with integrated humidifier: perfect for heating every room without drying the air. The enveloping heat and perfect level of humidity thus make for pleasant, breathable comfort.

High inertia

Recommended for use over long periods, oil-filled radiators are distinguished by their high thermal inertia, which guarantees the continuous release of heat into the room even after they've been turned off.

Oil-filled radiators range

AIR TREATMENT

DEHUMIDIFIERS

Compact and multifunctional
for air treatment all year round

Much more than dehumidifiers

Italian design

The Aquaria dehumidifier range offers six models in R290 designed by Alessio Abdolhian, already designer of the Dolceclima Air Pro portable air conditioners, awarded at the most recent Good Design Award, inspiring the company to create a distinctive family line. The aesthetic is distinguished by its **clean and contemporary style** and the capacity to enclose, in extremely compact forms, superior technology.

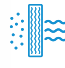

Purification with HEPA filters

On the air treatment front, the range is distinguished by **increasing filtration capacity**, and features a filtering capacity starting from the pre-filter and the activated carbon filter, right up to being equipped with HEPA filters in the most powerful models. The new Aquaria dehumidifiers go beyond their primary function and are positioned as solutions for **complete air treatment**, all year round.

Latest-generation controls

All models are equipped with precision control, thanks to the digital touch **control panel**. In addition, in the top-of-the-range models, the **integrated wi-fi** makes it possible to manage the dehumidifier functions even from your smartphone, by downloading the dedicated app.

 Dehumidification capacity (24h)
 Double filtration

 Triple filtration
 Integrated wi-fi

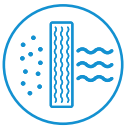

AQUARIA S1 10 P

The compact 10-litre dehumidifier

Cod. 02060

Skyrunner

DOUBLE FILTRATION

Captures the main allergens through the antiodust filter and eliminates unpleasant odours thanks to the integrated activated carbon filter.

ERGONOMIC DESIGN

Easy to move thanks to the side handles and wheels, it features a super compact design for easy positioning, even in the corners of the home.

DIGITAL CONTROL

The control panel allows accurate settings and timely control of the air temperature and humidity.

INTEGRATED TIMER

For 24h on/off programming

FEATURES

Dehumidification capacity: 10 l / 24h
For rooms up to 45 m³
Coolant gas: R290
Tank capacity: 2l
Noise level 40 dB
Temperature and humidity indicator
1-24h timer
Semi-transparent removable tank
Full tank alarm
Speed: low/medium/high
Dry function
Automatic defrosting device
Wheels for transportation

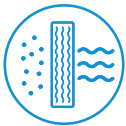

AQUARIA S1 12 P

The compact 12-litre dehumidifier

Cod. 02061

Skyrunner

DOUBLE FILTRATION

Captures the main allergens through the antiodust filter and eliminates unpleasant odours thanks to the integrated activated carbon filter.

ERGONOMIC DESIGN

Easy to move thanks to the side handles and wheels, it features a super compact design for easy positioning, even in the corners of the home.

DIGITAL CONTROL

The control panel allows accurate settings and timely control of the air temperature and humidity.

INTEGRATED TIMER

For 24h on/off programming

FEATURES

Dehumidification capacity: 12 l / 24h
For rooms up to 55 m³
Coolant gas: R290
Tank capacity: 2l
Noise level 40 dB
Temperature and humidity indicator
1-24h timer
Semi-transparent removable tank
Full tank alarm
Speed: low/medium/high
Dry function
Automatic defrosting device
Wheels for transportation

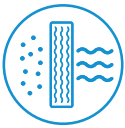

AQUARIA S1 14 P

The double filter 14-litre dehumidifier

Cod. 02062

Skyrunner

DOUBLE FILTRATION

Captures the main allergens through the antiodust filter and eliminates unpleasant odours thanks to the integrated activated carbon filter.

ERGONOMIC DESIGN

Easy to move thanks to the side handles and wheels, it features a super compact design for easy positioning, even in the corners of the home.

DIGITAL CONTROL

The control panel allows accurate settings and timely control of the air temperature and humidity.

INTEGRATED TIMER

For 24h on/off programming

FEATURES

- Dehumidification capacity: 14 l / 24h
- For rooms up to 65 m³
- Coolant gas: R290
- Noise level 40 dB
- Temperature and humidity indicator
- 1-24h timer
- Tank capacity: 2l
- Semi-transparent removable tank
- Speed: low/medium/high
- Dry function
- Automatic defrosting device
- Wheels for transportation
- Full tank alarm

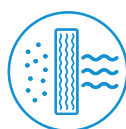

AQUARIA S1 16 P

The double filter 16-litre dehumidifier

Cod. 02063

Skyrunner

DOUBLE FILTRATION

Captures the main allergens through the antiodust filter and eliminates unpleasant odours thanks to the integrated activated carbon filter.

ERGONOMIC DESIGN

Easy to move thanks to the side handles and wheels, it features a super compact design for easy positioning, even in the corners of the home.

DIGITAL CONTROL

The control panel allows accurate settings and timely control of the air temperature and humidity.

INTEGRATED TIMER

For 24h on/off programming

FEATURES

- Dehumidification capacity: 16 l / 24h
- For rooms up to 75 m³
- Coolant gas: R290
- Noise level 40 dB
- Temperature and humidity indicator
- 1-24h timer
- Tank capacity: 2l
- Semi-transparent removable tank
- Speed: low/medium/high
- Dry function
- Automatic defrosting device
- Wheels for transportation
- Full tank alarm

AQUARIA S1 20 P

The most complete 20-litre dehumidifier

Cod. 02064

Skyrunner

TRIPLE FILTRATION WITH HEPA FILTER

In addition to the pre-filter and activated carbon filter, it is equipped with a HEPA filter effective on particles up to 0.3 microns

MOTORISED FLAPS

Enjoy the best comfort experience thanks to the air flow management function.

TOUCHSCREEN E HIDDEN DISPLAY

Touchscreen control panel with an understated style and backlit front display (can be deactivated) for immediate humidity control

INTEGRATED WI-FI

By downloading the OS Home app it is possible to manage all its functions from your smartphone, even when away from home.

FEATURES

- Dehumidification capacity: 20l / 24h
- For rooms up to 90 m³
- Coolant gas: R290
- Tank capacity: 5l
- Noise level 38 dB
- Motorised flap
- Temperature and humidity indicator
- 1-24h timer
- Semi-transparent removable tank with handle
- Speed: low/medium/high
- Dry function
- Automatic defrosting device
- Child lock
- Wheels for transportation
- Full tank alarm

AQUARIA S1 24 P

The most complete 24-litre dehumidifier

Cod. 02065

Skyrunner

TRIPLE FILTRATION WITH HEPA FILTER

In addition to the pre-filter and activated carbon filter, it is equipped with a HEPA filter effective on particles up to 0.3 microns

MOTORISED FLAPS

Enjoy the best comfort experience thanks to the air flow management function.

TOUCHSCREEN E HIDDEN DISPLAY

Touchscreen control panel with an understated style and backlit front display (can be deactivated) for immediate humidity control

INTEGRATED WI-FI

By downloading the OS Home app it is possible to manage all its functions from your smartphone, even when away from home.

FEATURES

- Dehumidification capacity: 24l / 24h
- For rooms up to 100 m³
- Coolant gas: R290
- Tank capacity: 5l
- Noise level 38 dB
- Motorised flap
- Temperature and humidity indicator
- 1-24h timer
- Semi-transparent removable tank with handle
- Speed: low/medium/high
- Dry function
- Automatic defrosting device
- Child lock
- Wheels for transportation
- Full tank alarm

SECCOPROF

Professional dehumidifiers for large spaces

Cod. 02106

Cod. 02107

SUPER POWER

Seccoprof is able to absorb up to 40 litres of excess humidity per day, thus allowing the dehumidification of large spaces.

NON-STOP OPERATING

Continuous condensation drain for non-stop dehumidification, without needing to remove the tank.

WARM GAS DEFROSTING

Guarantees constant operation of the compressor, avoiding frequent activation and deactivation periods, and also allows operation at temperatures close to 0°C.

DIGITAL CONTROL

The control panel allows accurate settings and timely control of the air temperature and humidity.

FEATURES

- Dehumidification capacity: 30l / 24h and 40l / 24h
- For rooms up to 150/200 m³
- Coolant gas: R290
- Tank capacity: 8l
- Noise level 52 dB
- Temperature and humidity indicator
- 1-24h timer
- Removable tank with water level visualisation
- 2 fan speed levels
- Dry and Fan function
- Automatic defrosting device
- Wheels for transportation
- Full tank alarm
- 2 filtering levels (pre-filter / activated carbon filter)

HUMIDIFIERS

With chromotherapy, for
total well-being

Breathe in well-being

Humidified air and essential oils

Good sleep, perfect concentration and a pleasant sensation of well-being are all tied to the comfort of the air we breathe. Managing the air quality is possible, starting from a correct balance of the **humidity present in the air**: even with the heating on, the percentage must remain at **50-60%** with the help of a device that humidifies the air in the environment, preventing dryness and irritation to the respiratory tract. The addition of **essential** oils to be diffused in the room also contributes to stimulating psycho-physical well-being.

The importance of chromotherapy

The Olimpia Splendid solutions for humidifying and diffusing aromas in the environment are not limited to their primary function; they integrate systems capable of making comfort a state of complete well-being. An example of this is the **lamp for chromotherapy**: an ancient practice that promotes relaxation and has beneficial effects on the mood.

Humidifiers range

Integrated wi-fi

LIMPIA 2

The small multi-function humidifier

Cod. 99423

TANK CAPACITY 2L

Possibility to fill the tank with up to 2 litres of water.
When the tank is empty, an alarm sounds

TOUCH DISPLAY

Practical and modern touch to optimise settings

CHANGING COLORED LED LIGHT

Variable courtesy light for an all-enveloping sensation
of well-being

8H TOUCH DISPLAY TIMER

Possibility to programme up to 8 hours of operation

FEATURES

Cold ultrasound technology
Humidification capacity 150 ml/h
LED light for chromotherapy
Tank capacity: 2 l
8h timer
Empty tank alarm
Cleaning brush included

LIMPIA 4

The practical adjustable humidifier

Cod. 99424

VARIO POWER

Continuous adjustment of the humidity emitted.

REMOTE CONTROL

To manage all functions in total comfort, even by remote

CHROMOTHERAPY

In addition to humidifying the air, it emits a variable courtesy light

TIMER

Possibility to programme up to 8 hours of operation

FEATURES

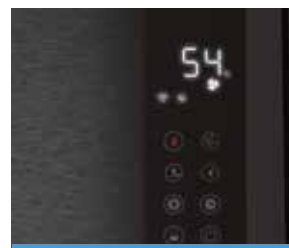

- Cold ultrasound technology
- Humidification capacity 300 ml/h
- Remote control
- Coloured LED light for chromotherapy
- Vapour intensity continuous adjustment
- Tank capacity: 4 l
- 8h timer
- Empty tank alarm

LIMPIA HERO WIFI

The multifunctional humidifier with built-in Wi-Fi

Cod. 99239

FRAGRANCE DIFFUSER

In addition to humidifying the air, it allows the diffusion of balsamic aromas that enhance well-being

PURE SYSTEM

Ionising plasma function to reduce polluting particles in the air and hot mist function to sanitise the water.

INTEGRATED WI-FI

By downloading the OS Home app it is possible to manage all its functions from your smartphone, even when away from home.

BABY MODE

Maintains a constant humidity of 55% to ensure child comfort

FEATURES

- Cold mist ultrasonic technology
- Tank capacity: 5 lt
- Humidification capacity: 450 ml/h
- 3 humidity emission settings
- Two-way vapour emission
- Humidity % setting from 40% to 80%
- Touchscreen display
- Hot mist setting
- Drawer for essential oils
- Night light with 7 colour tones
- Baby, Manual, Auto and Sleep Mode
- Child lock
- 12h Timer
- Empty tank alarm
- Cleaning brush included

LIMPIA 6

Humidifier with fragrance diffuser

Cod. 99425

TANK CAPACITY 6L

Tank filling with up to 6 litres of water. When the tank is empty, an alarm sounds

REMOTE CONTROL

To manage all functions in total comfort, even by remote

FRAGRANCE DIFFUSER

In addition to humidifying the air, it allows the diffusion of balsamic aromas that enhance well-being

3 HUMIDITY EMISSION SETTINGS

To manage the flow of steam, in addition to the bidirectional air flow and heating function

FEATURES

- Cold ultrasound technology
- Humidification capacity 330 ml/h
- Vapour pre-heat function
- Digital touch display
- 3 humidity emission settings
- Draw for essential oils
- Slim remote control
- Night light
- Tank capacity: 6 l
- 8h timer
- Empty tank alarm
- Two-way vapour emission

AIR PURIFIER AND AROMA DIFFUSER

Solutions for all-round
well-being

AURA ABSOLUTE

The smart purifier with HEPA 14 filter

Cod. 99278

HEPA 14 FILTER

In addition to the pre-filter and activated carbon filter, it is equipped with a HEPA 14 filter with an efficiency of 99.99% on particles up to 0.3 microns

UV-C LAMP AND IONIZER

To sterilise the air, destroying micro-organisms with UV-C rays and freeing it of polluting particles through the action of negative ions

AUTOMATIC ADJUSTMENT

Analyses the air quality in real time, self-adjusts for efficient purification and reports the data through the 4-colour light indicator

WI-FI AND VOICE CONTROL

Thanks to the integrated Wi-Fi and compatibility with the most common voice controllers, it can be managed with either voice commands or using the dedicated app.

FEATURES

- 3 filtering stages (washable pre-filter/activated carbon filter/HEPA 14 filter)
- Germicidal UV lamp
- Ionizer
- Filter duration up to 4320h
- Touchscreen display
- Particulate concentration digital indicator
- 4-colour air quality sensor
- Fan: low/medium/high/turbo
- Sleep/auto function
- 1-12h timer
- Handle
- Child lock

ASTOMI SOUND

Aroma diffuser with bluetooth speaker sound

Cod. 99408

SPEAKER SOUND BLUETOOTH

Allows you to listen to your favourite music thanks to the speakers and bluetooth connection

2 FUNCTIONS IN 1

In addition to diffusing fragrances, it humidifies the environment thanks to cold mist ultrasonic technology

CHROMOTHERAPY

Coloured courtesy light, fixed or variable, for an all-enveloping sensation of well-being

ENHANCED SAFETY

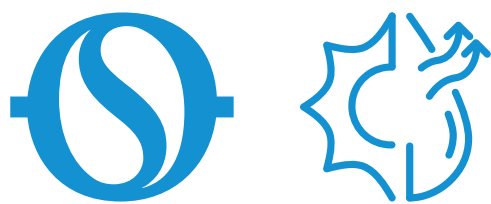

Thanks to the automatic shut off when the tank is empty

FEATURES

- Tank capacity 400 ml
- Changing LED light for chromotherapy
- Bluetooth speakers for mobile devices
- 2 emission settings: intense/light
- Humidification function
- 60 ml/h emission
- 11 h continuous operation
- Automatic switch-off with empty tank
